

# Read Me

Now, I know you are excited about getting started and earning money with the six products included in this package. But before you start doing that, it is very important that you read this letter. Because it includes the terms and conditions, some very important stuff you should know about and even some ideas on how to make money with the six products included in this package!

**Here are the six (6) products you now have Private Label Rights to:**

“Party Travel”

“Resell Rights Profits”

“Newbie’s Guide To Online Fortunes”

“Affiliate Success Road Map”

“Article Cash”

“PPC Profits”

**And here, once again are the terms and conditions you must abide by if you want to start making money with the products listed above:**

**1.** When you purchase this package, you will get **non exclusive** Private Label Resell Rights to the six products included in this package. This means that you **are not the only one** allowed to sell these products and other people can also buy Private Label Resell Rights to the products in this package.

**2. I do not make any guarantees** that you will earn any money with the products included in this package, your income will depend solely on your own efforts. It is **impossible** for me to guarantee that you will make any amount of money with the products in this package, simply because I do not know you, I do not know how hard you work, how much effort you will put into your business or your skill level.

**3. You are responsible** for providing customer service to your own customers.

**4. You are not allowed**, under any circumstances, to sell, give away, or redistribute in any way **the raw MS Word files and the raw PSD graphics files** to any of the products in this package. So in other words:

do NOT sell or give away the raw source files to any of the six products included in this package.

**5.** You may not market this product in any illegal, immoral or unethical manner, including the use of spam (unsolicited commercial email) and off-topic newsgroup or discussion forum postings.

If you look at the terms and conditions above, you will notice that there is really one restriction to making money with the six products in this package. And that very important restriction is: **You may not sell the raw MS word or PSD source files to any of the products in this package.**

Of course, the other 4 terms and conditions are very important as well and should be followed 100% with NO acceptations. But as far as actually selling the product and making money with them goes...the main thing you must remember is you can NOT sell Private Label rights to anyone of the six products in this package.

**So, what exactly can you do to make money with these products?**

Almost anything you please! You must never forget, you now have **Private Label Rights** to 6 info products complete with sales pages, graphics, download pages and source files! So you CAN change these products in any way you like and do a lot more with them than simply sell them on their already put together mini sites!

**Here is just some of the stuff you can do:**

- Sell the six products included in this package on their own mini sites: simply upload the sales pages to the internet, put in your own payment link and start selling...you can be up in under an hour!
- Create new products by combining and changing the ones you already have: Just copy and paste parts of the products together and you will have all new, unique products of your own!
- Create bonuses or courses out of the products you now have to attract more sales and subscribers: You can use the six products in this package to add value to your already exciting products or generate a ton of highly targeted leads.
- Sell Resell Rights to any of the six products in this package: Resell rights are extremely hot, and the best part is you can easily charge \$97 a pop!
- Create Adsense content pages and generate a passive income from selling ad space on your website.

Honestly, I can go on for a hundred more pages just listing all the stuff you can do with the products in this package. The point is, you now have **Private Label Rights** to the 6 great products in this package and you should take full advantage of all the awesome opportunities to make money with the products you now have!

---

**If you decide to change the six products in this package, there is some thing VERY IMPORTANT you should know:**

Some of the products in this package contain articles written by other people. You may remove these articles or move them around to other parts of the products if you wish, but **you may NOT change them in any way or claim that you have created them.**

So, when you are changing the products in this package you must make sure you do NOT change the articles included in the product you are changing.

**I did my best to warn you** and will not be held accountable if you get in trouble for taking credit or changing any one of the articles included in any of the products in this package.

So when you are changing any of the products in this package, simply avoid changing the articles written by guest authors which are marked and signed with the author's names.

---

**Now, I have a few requests and suggestions to make:**

- Please take full advantage of the Private Label Rights you have to the six products in this package. In other words, **do NOT treat these products as if you simply have resell rights to them.** Get creative, make new products, create articles and bonuses out of them and use this package to its full money making potential!

- Try your hardest not to devalue any of the products in this package and make it harder for other people to make money. There is absolutely NO reason you should sell resell rights to any of these products on eBay for \$0.99. That is just plain stupid and is not good for anyone.

If you want to make lots of money on the internet, learn to market well and sell products at reasonable price. Don't simply lower the price...there are many other ways to make pocket change besides devaluing products people can actually make money with.

- And once again please, please, please don't forget you have Private Label Rights to the 6 products included in this package. So take full advantage of this great opportunity and make as much money as you possibly can!

Best of luck!
